

MONA BOITIÈRE

WWW.MONABOITIERE.COM

Born into a family of artists, I have been exposed to art since before I could even walk. I've shared the love of photography and video with only one other passion, music. The objective of my work is to find the best blend of all three. I am a very curious person and I am constantly looking to immerse myself in the world of art. I envision myself capturing life's best moments on film for as long as I can and integrating music to make the experience whole. This is my art, and I'd like to make it my career. Currently, I am a French photography student studying at the Miami Ad School in Miami. At school, I am learning how to best make career goals a reality.

"Le Petit Oiseau Va Sortir"

📍 PARIS

During each of these internships I got «hands-on» experience in assisting independent photographers. It was an enlightening view into the professional world of photography.

EXPERIENCE

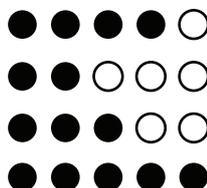

I worked on my own for the very first time in Miami. Someone needed pictures taken for his business website and Social Media and I took up the task. I went to his office four different times to take the pictures and once I got home I edited them and sent them back to him. He was extremely pleased with my work and I got the opportunity to deal with a client by myself. This was a great first experience.
